

## New sofa Bonnie

Design Mats Broberg & Johan Ridderstråle

Bonnie is a modular sofa system that pays extra attention to proportion and comfort. It is straightforward and reduced in shape but at the same time with a sense of calm grace. By minimising the number of seams in the upholstery fabric, the design brings focus to the sofas silhouette.

Novelty with Bonnie is its upholstered legs in either fabric or leather. The “socks” are upholstered sleeves fitted on the standard black metal legs, and they are available with extra price. With the upholstered legs, the look of the sofa can become more playful or harmonious depending on the combination.
