Bon & Bon Daybed

Design Mats Broberg & Johan Ridderstråle

Bon combines soft and curved shapes in its seat with graphical clarity in its base frame. The aesthetically pleasing metal base frame supports the upholstered elements and underlines them visually to create an inviting rhythm in the composition.

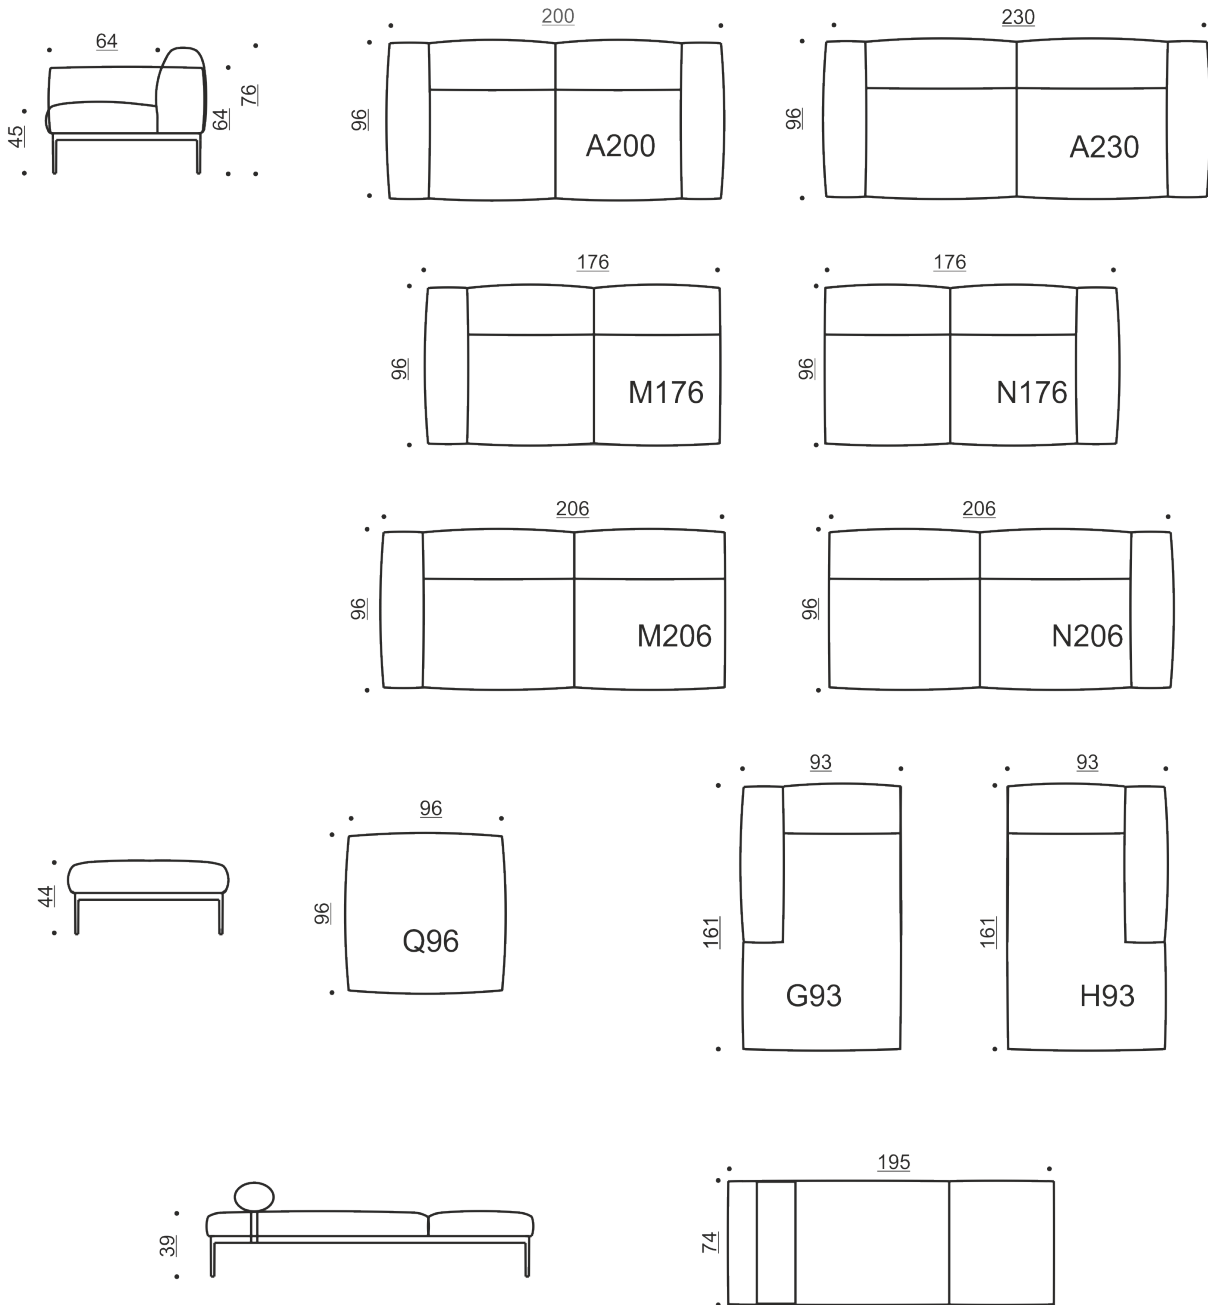

Fit for both homes and public spaces, Bon sofa and Bon Daybed continue designer/architect -duo Broberg & Ridderstråle's design philosophy that is apparent also in Adea's Baron and Bonnet chairs which together create a harmonious ensemble suitable even for the largest of spaces.

Bon A230 – Aurora 20, Bon Daybed – Dumet 162 + Master 53

Front and back cover photos: Bon A230 – Malawi 17,
Bon Daybed – Malawi 17 + Master 53
