Bonnie

Design Mats Broberg & Johan Ridderstråle

Bonnie is a modular sofa system that pays extra attention to proportion and comfort. It is straightforward and reduced in shape but at the same time with a sense of calm grace. By minimising the number of seams in the upholstery fabric, the design brings focus to the sofas silhouette.

To create a sofa with a perfect size and shape for any space, Bonnie consists of a wide range of module elements. In addition to variable dimensions, these elements include a variety of features such as high and low armrest and chaise lounge module with a retraced backrest.

Even though Bonnie's seat and back rest are fixed, the upholstery is fully removable, making it an ideal sofa for families as well as for public settings. With the complementary, freely arrangeable loose cushions of the same fabric as the sofa, finding the right relaxing-position is easy.
