Origami

Design Damian Williamson

Origami is not afraid to be the centre of attention – the unique 360-degree design and low height make it ideal to be placed in the middle of the room. Unique concave shapes both in the back and the low front of the seat are combined with soft round shapes of the seat and armrests. Origami is not a regular sofa or an armchair, it is a statuesque centre piece.

Multiple module options make it easy to build variable combinations for different spaces. Whether you need a small two-seater sofa, a massive corner sofa, a chaise longue or an armchair, Origami can be folded into several shapes and sizes.

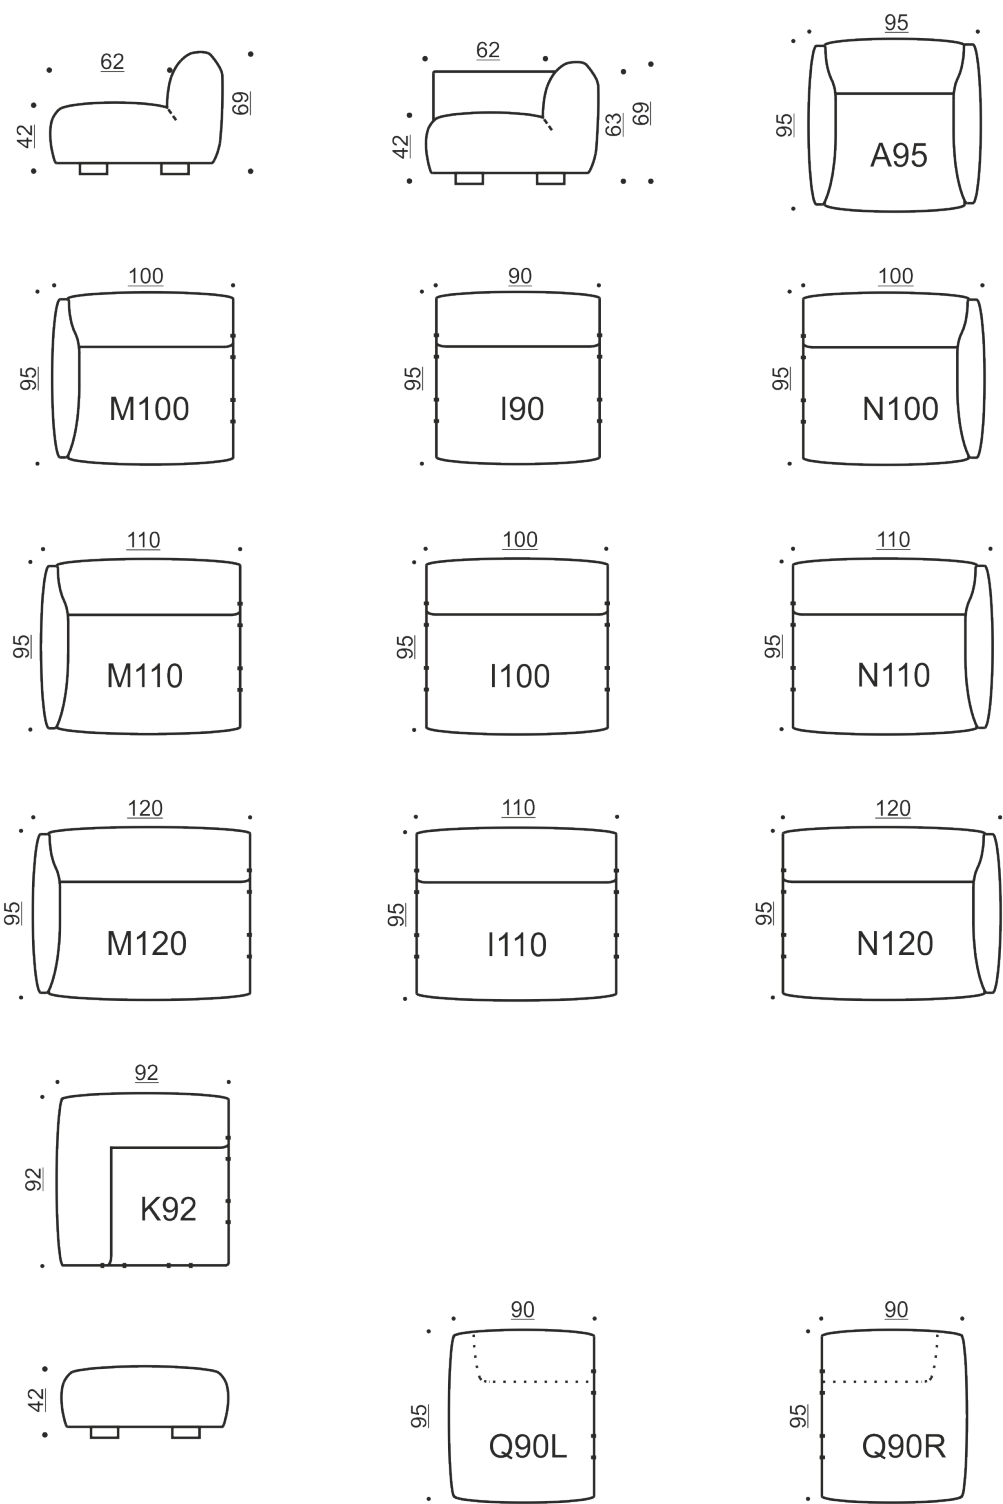

Origami M100 + N100 – Orsetto 0724

Cover photo: Origami M100 + N100 – Orsetto 0724

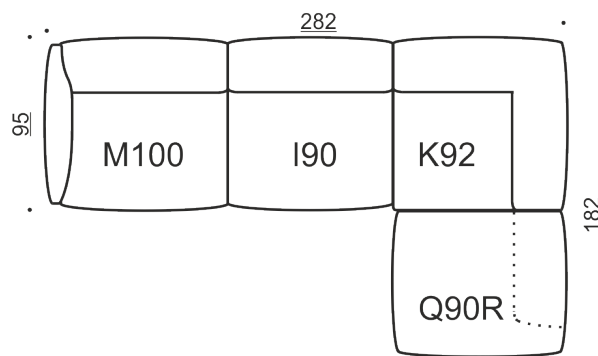

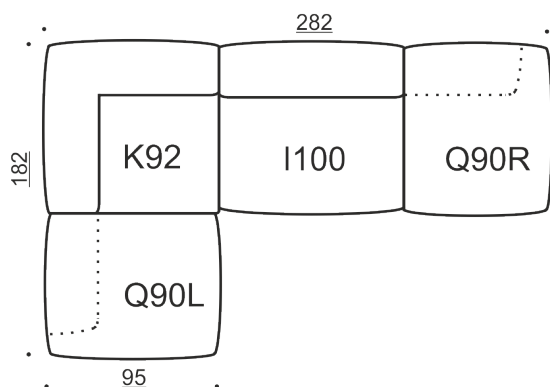

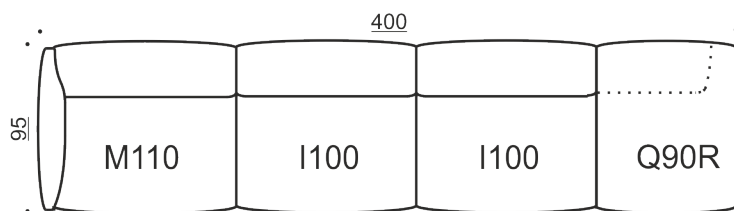

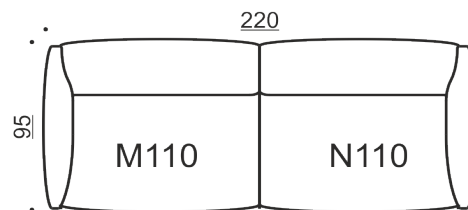

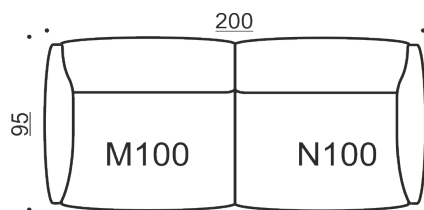

Back cover photo: Origami A95 – Dumet 022

Measurements

All measurements +/- 3 cm
 Upholstery: Removable fabric upholstery. Leather upholstery not available.

Example combinations

Origami M100 + I90 + K95 + Q80R – Orsetto 011

All module combinations can be configured for left or right orientation and measurements can be changed by using the same module in different widths.

Origami Q90L + I90 + I110 + K92 + I90 + N120 – Orsetto 012
